Hello 👋 I'm Alhasan, a Head of Product Design and Google AI Professional Certified. I design AI products, and my design process runs on agents. Automation gives me volume. Judgment decides what is good. I lead design at Talentera (recruitment, AI, automation) and PrivacyWall (privacy-first products), and I built and shipped Snaptek, an AI notes app, to the App Store.

Experience

Founder & Product Designer — Snaptek
2025 – Present

- Built Snaptek from concept to App Store-ready product, defining the product vision, UX architecture, visual system, monetization model, and AI-powered feature roadmap.
- Designed a modular productivity experience combining notes, screenshots, saved links, medications, workouts, recipes, expenses, and smart folders into one organized iOS app.
- Created Pro workflows for iCloud sync, folder selection, AI+ note enhancement, structured content extraction, and subscription-based feature access.

Head of Product Design
Telentera Dubai | Dec 2025

- Define and maintain the overall design vision, principles, and system consistency across all Talentera modules (ATS, Sanad Assistant, Bayt integrations, Evalufy, etc.).
- Drive end-to-end design for new features — from concept, research, and prototyping to final delivery.
- Collaborate with product managers, engineers, and stakeholders to shape product strategy and roadmap priorities.
- Own and evolve Talentera's Design System (components, tokens, documentation, and usage patterns).

Lead Product Designer
Cold Electric Taiwan | Oct 2024 - Nov 2025

- Designed user-friendly BMS/EMS interfaces by combining user research, wireframes, prototypes, and data-driven insights. Collaborated with product, engineering, and stakeholders to simplify complex energy workflows and maintain a consistent design language across applications.

Education

GTC | Diploma, Financial Management & Banking | 2005 - 2007

El Manfalouty
Secondary School, High school | 2004 - 2005
